THE GEORGE GREGAN FOUNDATION

## DONATION FORM – In Memory of Hannah Coary

The George Gregan Foundation was established in August 2005. The idea for this Foundation was born in 2004 when George and Erica's son Max was diagnosed with epilepsy. They spent time in hospital with Max and experienced firsthand the needs of many sick children and their families. The Foundation aims to raise funds for specific projects targeting children.

The key projects of the Foundation are researching, funding and delivering outdoor specialised playgrounds in children's hospitals across Australia and the funding of Fellowships in Neurology at The Children's Hospital at Westmead and at the Mater and Royal Children's Hospital in Brisbane. The playgrounds we build are used by patients and their families to aid in recovery, physical development, therapy and as a classroom for the hospital school. Our first playground was opened in October 2006 at The Children's Hospital at Westmead. Our second playground was opened at The Royal Children's Hospital, Brisbane in 2008 and we have just commenced building a playground at Sydney Children's Hospital, Randwick.
